

Treasured memories that last forever...

Ayrshire Memorials

FOUNDED ON CRAFT. BUILT ON TRUST.

"We came into this trade with a simple belief: that the people who come to us deserve to be treated like family."

Ayrshire Memorials was established over 30 years ago by a stonemason who believed that the quality of a memorial, and the care with which it was produced, mattered deeply. That it was not merely a product, but a mark of love that would stand for generations.

Today, his grandchildren continue that work. Our third generation has grown up around stone dust and chisels, around grieving families and the quiet satisfaction of work done well. We have a team of six craftspeople, all working in-house at our Ayrshire workshop. Nothing is sent out. Nothing is outsourced.

For nearly 40 years, we have served thousands of Ayrshire families. Some of them we have served more than once. They return years later when another stone is needed, or to update one that was made by the previous generation. That continuity is something we are deeply proud of.

QR DIGITAL MEMORIAL PAGES

We engrave a QR code directly into the granite. It's not a tag, not a sticker, not an adhesive plate. The code is part of the stone. Scanning it with any smartphone opens a private digital memorial page where the family can share photographs, life stories, tributes and memories curated entirely by them, and updated whenever they wish.

- QR code laser-engraved into the stone, permanent and vandal-proof.
- Links to a private, family-managed digital memorial page.
- Upload photos, videos, stories, dates and tributes.
- Can be added to a new memorial or an existing headstone.
- No app required, any smartphone camera will scan it.

Some companies offer stick-on QR tags. We don't, because tags fade, peel and can be removed. An engraved QR code will be readable for as long as the stone stands.

Don't see what you were thinking of? Please contact us to see if we can help, as we can create almost any memorial. Bring us a sketch, a photograph, an idea and we'll make it.

PHOTOGRAPH CERAMIC MEMORIAL FEATURES

A photograph added directly to granite creates a portrait that will last as long as the stone itself. We can add a photograph to a new memorial or to an existing headstone.

A favourite portrait, pet, place, vehicle, emblem or piece of artwork can be reproduced and adapted to suit a variety of ceramic shapes and sizes.

The shapes shown below represent our most popular options. On the following page, you can see example ceramic photographs.

CERAMIC PHOTOGRAPHS

We can add a photograph to a new memorial or to an existing headstone, and our in-house digital team can enhance, restore or retouch any image to the standard required.

Even an old, faded or low-resolution photograph can produce a beautiful result. You provide the picture, we will do the rest.

ENGRAVINGS

Using the latest laser etching we can help create any graphic into a lasting emblem to be added to granite memorials.

We can consult, advise what is possible and help with the design (from any existing image, or even an idea you may have) and produce a draft for you to approve before any work is committed to the memorial.

Above are example engravings, with just about anything possible. For more information about adding to existing memorials or what can be created with a new memorial, we are always happy to offer our advice by email, phone or in person.

GRANITE STONES

CHOOSING THE RIGHT MATERIAL

We work with a wide range of granites, limestones and sandstones. Below and over the following pages, you can view a selection of the beautiful colours and patterns we offer.

Each stone has its own natural pattern and character, and our team will be happy to help you choose the right one for your memorial.

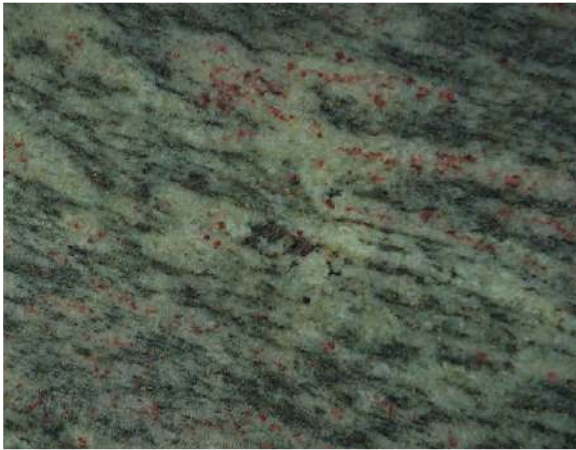

We have some examples of most granites in our showroom to see with your own eyes.

ADDITIONAL INSCRIPTIONS

We can add new inscriptions that match the existing lettering style to any memorial. Using all our experience we will carefully replicate and match the lettering whether it is hand-cut lettering, Lasercut or Sandblasting or gold leaf or painted fills.

We also offer modern laser etching, ceramic photo, QR codes and other engraving services when adding to a memorial.

MEMORIAL CLEANING & RESTORATION

Our professional cleaning process uses specialist stone-safe products that remove biological growth and weathering without damaging the stone's surface. We can also re-gild lettering that has faded.

RE-FIXING & STRUCTURAL REPAIRS

Ayrshire Memorials can carry out assessments of memorials and re-fix and repair to meet current cemetery health and safety guidelines and the NAMM Code of Working Practice, ensuring stability without ever compromising the stone's appearance. We can also work with families whose stones have been laid down by the cemetery to have them reinstated correctly.

MEMORIAL INSURANCE

A memorial is a significant investment, financially but more importantly emotional. Our specialist memorial insurance protects against the events that cannot be predicted such as accidental damage, vandalism, weather damage or other issues which may occur in the future.

We can advise on appropriate cover and arrange a policy at the time of commission or at any point thereafter.

Please contact us for further information or any questions you may have. We are always on hand to help, offer advice and guide you through any aspect of new, existing or future memorials.

EVERYTHING YOU NEED, TAKEN CARE OF.
